

# Product notifications according to CLP art. 45 in Norway

12 th BfR User Conference on Product Notifications 15 November 2021

**Mette Ekeland**

Senior advisor

Norwegian poisons information centre

National institute of public health

[mette.ekeland@fhi.no](mailto:mette.ekeland@fhi.no)

# Overview

- Introduction
- Product notification in Norway: The past
- Product notification in Norway: The present
- The future
- Questions

# Norwegian poisons information centre

- Collecting information and giving advice since 1961
  - 24/7 since 1993
  - Open for public and health care professionals, and anyone else
  - One call staff is: pharmacists, veterinarians, doctors and toxicologists. Same staff doing the scientific work: literature surveillance, reviews etc
  
- The PC and I
  - Since 2001
  - Working with CLP art. 45 and annex VIII for about 10 years
  - PCN

# The hotline

- Approx 47 000 calls annually
- 1 or 2 people answering calls

# Average call time 4 minutes

- Caller tells me what has happened
- I ask follow up questions
- I find product info (composition)
- I assess the product composition for toxicity, and in relation to the exposure
- Decide on what action, if any, is needed
  - Tailored to the specific exposure, patient, place, time of day etc
- Treatment advice is explained to the caller

- I need to find product info in < 1 minute

# Product information in Norway

## The past

- Directly from industry
- Product register
- «Product cards»

# Product information in Norway

## The present

- General product information is important
- «Product cards» only on a few, select products
  
- Product Register
- PCN
- SDS

# Product information in Norway

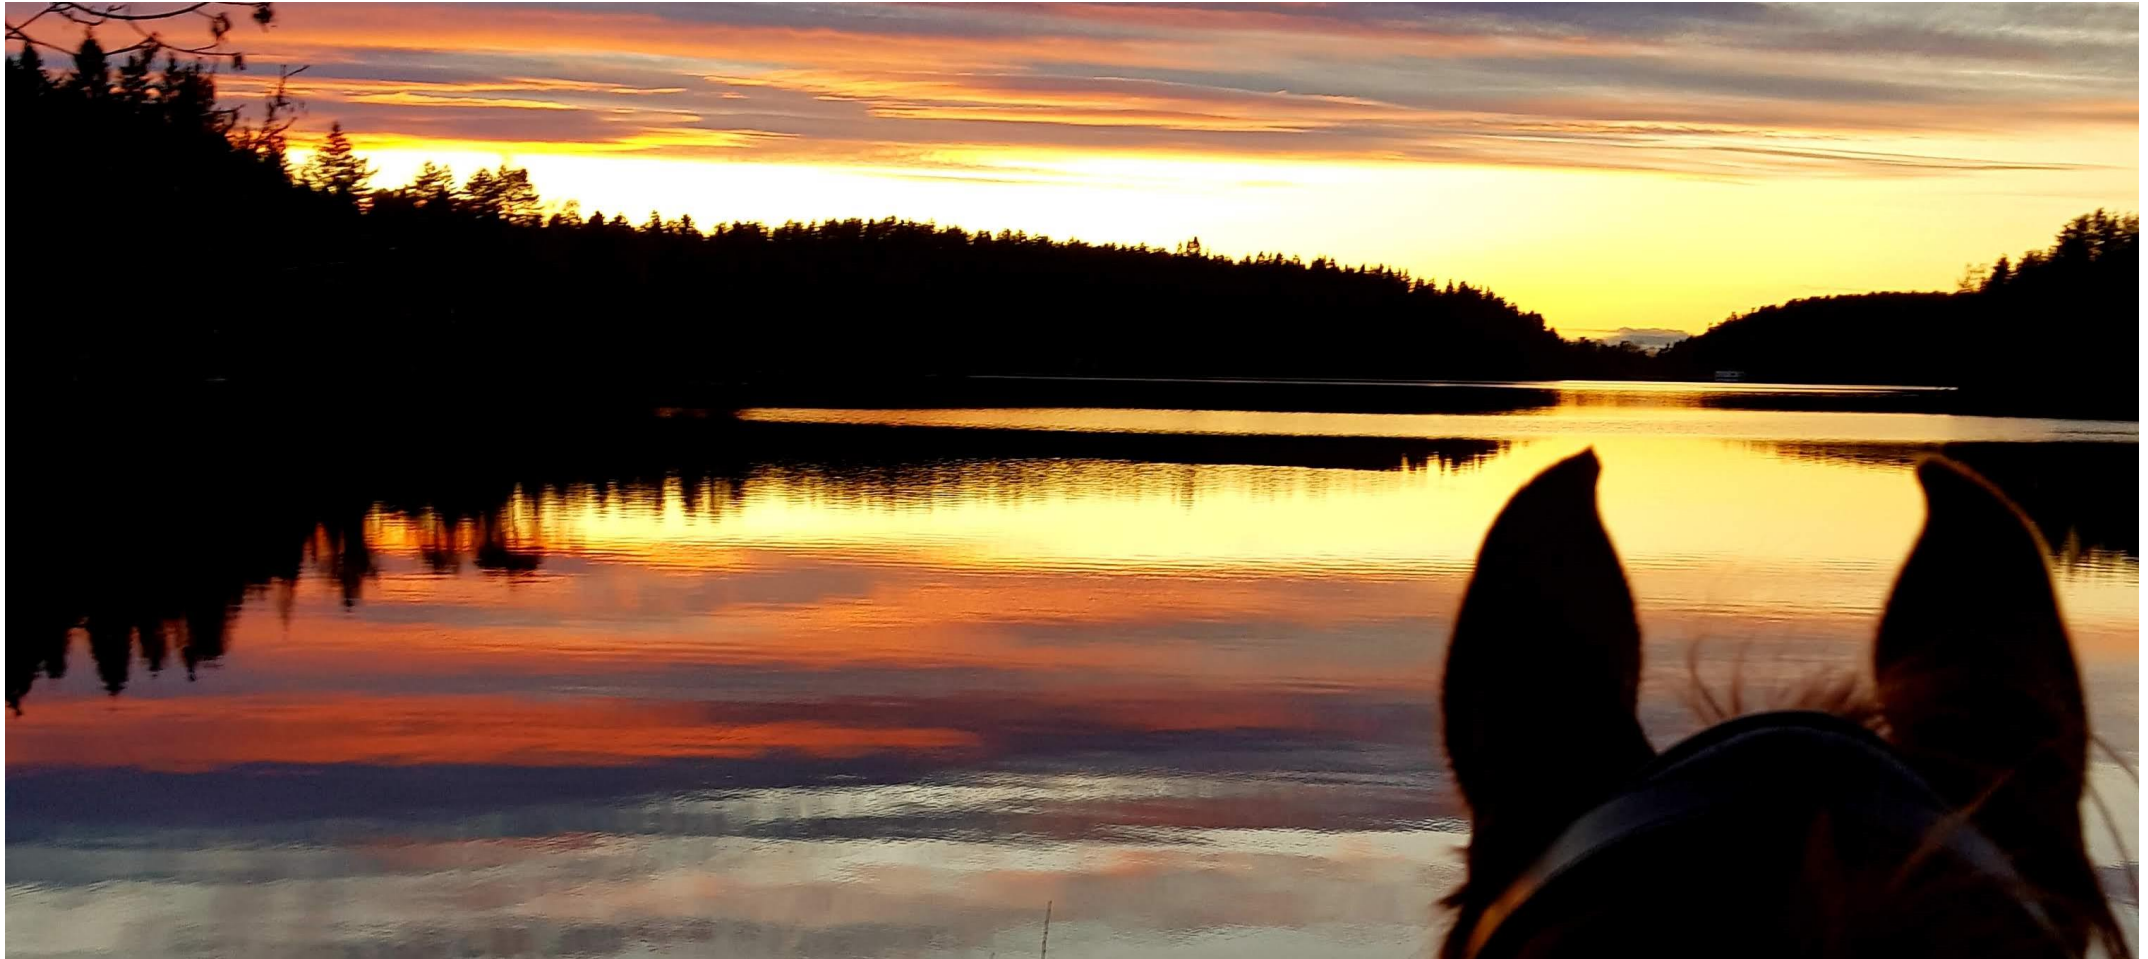

## Future

- PCN is our main source of product information
  - > 2025
  - UFI is a dear friend?
- PCN is hopefully user friendly for industry
  - If it doesn't work for industry – it doesn't work for us!

There is no success without failure
